

Is This For Your Organization?

A one-page scan of what's licensable, to whom, and why

Sticky Brain Studio's licensable curriculum lets organizations extend neurodiversity-affirming care without building a behavioral health team. Find your org type below, see which products fit, then request the full catalog.

Organization Type	Top Licensable Products	Primary Use Case
Pediatric Primary Care / Family Medicine	Clinical Provider Series (ADHD module), Pediatric Parent Course Suite, Late ADHD/Autism Diagnosis	Enroll newly diagnosed families in a course plus give packet, instead of meds-only management. Reduce BH referral wait times.
Adult Outpatient / Integrated Primary Care	Clinical Provider Series, Adult ADHD Course, Late ADHD/Autism Diagnosis, Pain Psychology for Medical Providers	Patient education library for adults navigating new diagnoses or chronic pain. Useful for clinics without psychology staff.
Pediatric Behavioral Health Clinics	Full Clinical Provider Series, EF Skills Lab, Pediatric Parent Course Suite	Patient education, parent programming, and staff professional development across the team.
Hospital Systems & Health Networks	Full catalog under Tier 3 enterprise license	Curriculum integrated into patient portal, residency or fellowship training, parent education across multiple sites.
Pain Clinics & Rehabilitation Programs	Pain Psychology for Medical Providers, Adult ADHD Course	Patient psychoeducation, provider training, support for pain-mood-anxiety comorbidity.
Schools & School Districts	Executive Function Skills Lab (educator + student editions), classroom toolkits, parent course suite	Staff professional development, student skill-building, family resource library, IEP/504 support.
Juvenile Justice & Community Youth Programs	EF Skills Lab, Pediatric Parent Course Suite, custom modules available	Trauma-informed staff training, youth skill-building, family engagement for high-need populations.
Universities & Training Programs	Clinical Provider Series, Late ADHD/Autism Diagnosis Clinician Edition, EF Skills Lab	Residency and fellowship curriculum, student health center programming, university counseling center training.
Community Mental Health Organizations	Pediatric Parent Course Suite, EF Skills Lab, Clinical Provider Series	Patient and family education programming, staff training, neurodiversity-affirming practice development.

Don't see your org type? It probably still fits.

This grid is illustrative. If you serve youth, families, or adult patients navigating neurodevelopmental, mental health, or chronic health concerns, our curriculum likely applies. Reach out and we'll figure it out together.

What Happens Next

Pricing, process, and the three-step path from interest to launch

Licensing Tiers (Scoped to Fit)

Tier 1 — Single Site

One location

Best for: Solo practices, small clinics, school-based programs

All tiers include annual updates, internal-use rights, and any new materials released during the term.

Tier 2 — Multi-Site

2–5 locations

Best for: Group practices, community MH, school districts

All tiers include annual updates, internal-use rights, and any new materials released during the term.

Tier 3 — Enterprise

Unlimited locations

Best for: Hospital systems, health networks, state or county programs

All tiers include annual updates, internal-use rights, and any new materials released during the term.

Three Steps to Launch

01

Send a brief inquiry

Tell us your org type, products of interest, and timeline. A short paragraph is enough.

02

30-minute discovery call

We talk scope, audience, and the right tier. Free, no obligation.

03

Tailored proposal

Within 5 business days you receive scope, pricing, deliverables, and timeline. Kickoff in 2–3 weeks.

EQUITY & ACCESS

Nonprofit, Title I, and high-need community pricing can be adjusted on a case-by-case basis. We are committed to making this curriculum accessible to organizations serving high-need populations.
